

A red, vertically-ribbed 3D printed pen holder is the central focus. It contains several pens in yellow, orange, and light blue. Behind the pens is a book with a red cover titled "Once Upon A Time". The background is a blurred indoor setting with green plants on the left and a window with blinds on the right. The lighting is soft and natural, creating a professional and creative atmosphere.

ZETA LAYERS

FROM CONCEPT TO OBJECT.
ONE LAYER AT A TIME

DESIGN. ENGINEER. PRINT.

PRODUCT CATALOG

WHO WE ARE WE DON'T JUST PRINT. WE BUILD.

Zeta Layers is a custom 3D printing studio based in Ahmedabad. You bring the idea — we design it, engineer it, and print it.

No prior files needed. No technical knowledge required. Just a vision.

We work across two crafts under one roof — design and manufacturing so your idea moves from conversation to physical object without friction.

At Zeta Layers we,

01 — Concept & Aesthetic Design

02 — Prototyping & Sampling

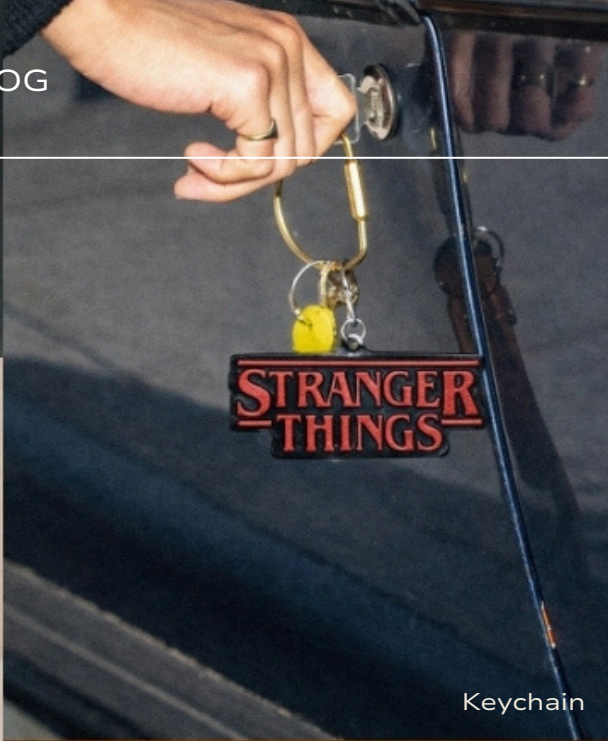

03 — Production & Manufacturing

04 — Finishing & Post-Processing

**The space between idea and object.
That's where we work.**

WHAT WE'VE BUILT

Desk Organiser 1

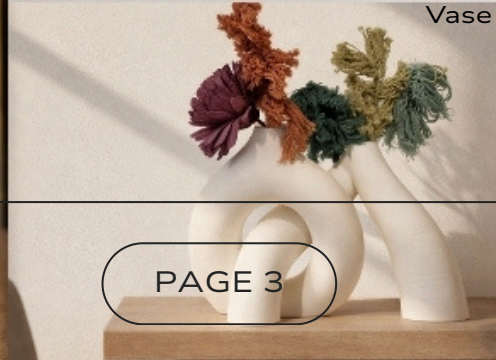

Calendar

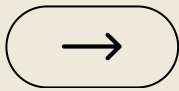

Name Badge

Desk Organiser 2

Vase

MATERIALS & CAPABILITIES

Bio-Polymer PLA+-Standard FDM

High Detail Resolution

Easy Printability, Smooth Surface, Eco Friendly

For — Keychains · Display Models · Home Décor

PETG-FDM

HDT 80°C

Impact Resistant Moisture Resistant Slight Flexibility
For — Functional Parts · Organisers · Mechanical Housings

TPU- FDM

Shore 95A Hardness

Rubber-Like FlexShock Absorbing High Durability

For — Protective Cases · Wearables · Gaskets

PLA Carbon Fibre-FDM

Carbon Reinforced Core

Structural Rigidity Lightweight Carbon Finish

For — Drone Parts · Engineering Models · Automotive

ABS-FDM

HDT 98°C

Heat Resistant Impact Tough Machinable

For — Functional Prototypes · Mechanical Parts · Enclosures

IF IT HAS A SHAPE. WE CAN PRINT IT.
IF IT DOESN'T EXIST YET, WE'LL DESIGN IT.

Industries We Serve

Architecture

Scale site models

Interior detail mockups

Structural concept forms

Engineering

Enclosures & housings

Jigs, fixtures & tooling aids

Functional mechanical parts

Branding & Retail

Brand logos & signage

Display stands & fixtures

Bespoke packaging inserts

Home & Lifestyle

Personalised gifts

Custom décor & organisers

Replacement & spare parts

Education & Research

Teaching aids & props

Anatomical & science models

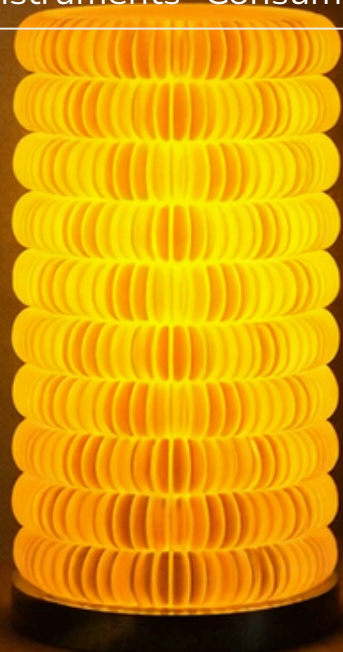

Lab prototypes & instruments

Product Design

Concept models

Market-ready prototypes

Consumer goods & packaging

WHAT WE'VE MADE

FUNCTIONAL

Drone Frames · Gaskets ·
Brackets · Hinges · Gears
· Connectors · Cable Clips
· Medical Models

DECORATIVE

Vases · Lamps · Planters ·
Wall Art · Figurines ·
Architectural Models

BRANDED

Logos · Name Plates ·
Display Stands ·
Trophies · Keychains ·
NFC Tags

If it has a shape, it can be printed. If it doesn't exist yet, we'll design it.

LET'S BUILD SOMETHING.

You have the idea. We have the tools, the machines, and the craft to make it real.

Tell us what you're thinking, even if it's just a rough sketch or a voice note.

We'll take it from there. Start with a WhatsApp message or an email. We respond within 24 hours.
